Professional Experience

General Electric Gas Power   Atlanta, GA
Digital Technology Intern   May 2021 – August 2021
- Used Tableau to create Operations Dashboards to standardize the definition of application operations success across GE Gas Power.
- Created an automatic Natural Language Processing (NLP) classifier for application incidents, changes, and requests which increased the efficiency of ticket and application problem identification.
- Created an Automatic Application Verifier to on-demand and quickly check the web statuses of critical apps during vulnerable events.
- Worked with a GE Global Research Center Team to use a Zero-Shot BART Model to make a binary decision on information requests.

Department of Computer Science, UNC   Chapel Hill, NC
Research Assistant (RA)   August 2020 – Present
- Used NLP models to research sustainability and social good applications.
- Integrated knowledge graphs with social media datasets for the training of models.
- Lead and participated in a weekly undergraduate reading group focusing on current Computer Science Research.
- Worked across disciplines to enhance Prostate Cancer Information Research with NLP techniques.

Department of Computer Science, UNC   Chapel Hill, NC
Teaching Assistant (TA)   January 2020 – Present
- Organized a team of twelve other Teaching Assistants to create curriculum.
- Conducted the selection and onboarding of new TAs.
- Held classes and office hours for ~200 students each semester.
- Graded homework, programming assignments, exams, and hardware labs.

Ruffalo Noel Levitz, LLC at the UNC Engagement Center   Chapel Hill, NC
Shift Supervisor, former Development Representative   January 2019 – August 2020
- Oversaw the collection of approximately $1M worth of donations while managing a team of ~25 employees.
- As a Development Representative, raised $50,000 by calling UNC alumni and parents.
- Actively recruited, interviewed, and trained team members.
